Figure 1 illustrates the experimental setup. A participant is seated at a table, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The participant's hand is positioned at the starting point. The distance between the starting point and the target is labeled as 'Distance'. The participant is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system, which is also connected to a data acquisition system. The data acquisition system is connected to a computer, which is also connected to a printer. The printer prints out the results of the experiment.
